optibelt
Power Transmission

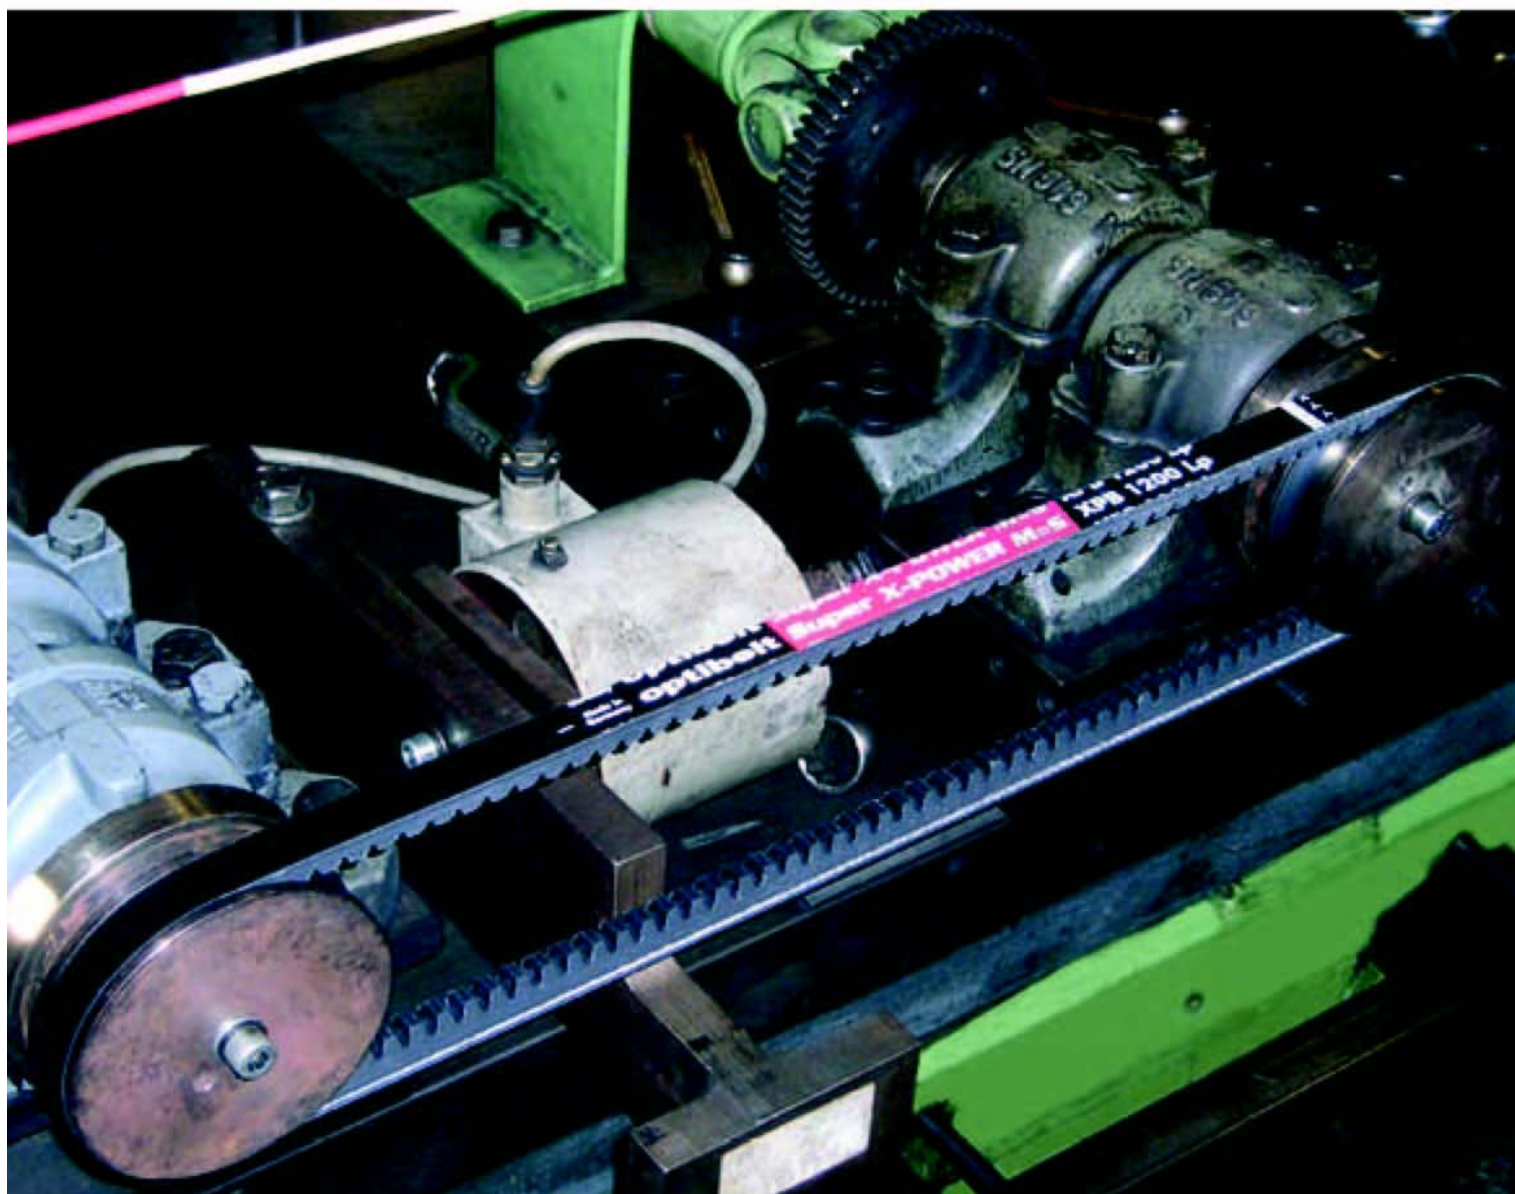

optibelt *Super X-POWER M=S*

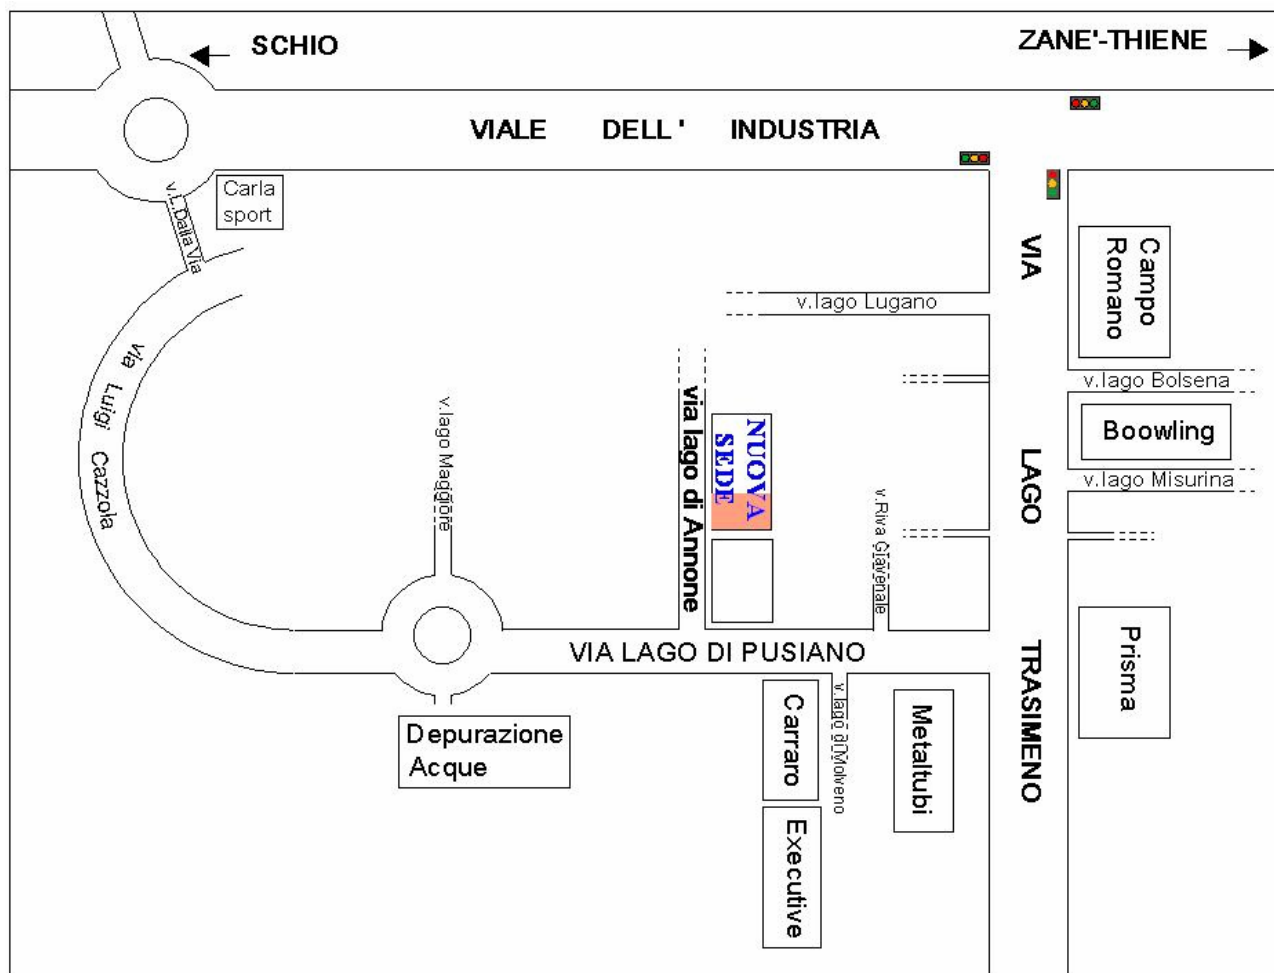

**Comparative test: tension behaviour (N),
power P=13.0 kW, n1=4700 min⁻¹**

Test result:

Optibelt Super X-POWER M=S belts display an improved tension behaviour compared to Super TX M=S belts. The fibre-reinforced belt substructure together with the low stretch polyester tension cord and the optimised moulded cog lead to more dynamic and effective power transmission.
